RECOsystems RL 69 S

laminator for laminating rolls

The RECOsystems RL 69 S is a roll laminator where you can adjust speed, temperature (stepless) and mounting thickness. Therefore you can reach a perfect laminating result which satisfies you and your customers.

If you want to laminate only on one side, the machine has a shiftable decurling bar which helps you to achieve a more straight laminating result.

With the RECOsystems RL 69 S you can laminate hot and cold film.

For this reasons The RL 69 S is a very popular machine for graphic companies.

technical specifications:

- working width: 685 mm
- for hot and cold laminating
- double and single side laminating (decurling bar)
- 25 - 250 mic (max. Temp. 150°C)
- temperature adjustable on upper and lower roller
- 9 speed levels (max. speed 2,5 m/s)
- adjustable mounting thickness (max. 6 mm)
- heating up time: approx. 10 min.
- 230 V / 50 Hz
- 1500 W
- weight: 83/75 kg
- dimensions: 1130x740x600 mm / 970x540x470 mm *

*packing size/machine size (width x depth x height)
